

Green Campus Policy

Preamble

Sree Vivekananda College Teacher Education Centre ,Akkikkavu holds the responsibility of maintaining a green campus, taking eco- friendly initiatives and increasing environmental awareness among its staff and students.

Objectives

To develop, promote, improve, and monitor environmental practices and work towards reducing the greenhouse gas footprints on campus.

1. To ensure compliance with all environmental legislation among its stakeholders and maintain the building in an eco-conscious manner.
2. To reduce environmental responsibility.
3. To plant sufficient numbers of trees and potted plants every year and keep the campus green.

Statement

The college is built in 2192 sq.meters Acres of land. Every inch of the land is optimally utilised.The built-up area has Office room, Faculty room, Principal's room, classrooms, labs and physical education room, yoga hall etc. The open spaces have parking spaces, herbal garden, kitchen garden, open walking passages etc. Tree plantation drive is a regular feature of the college.

Action Plan

1. The campus has sufficient green cover in the form of trees and potted plants. There is a herbal garden with medicinal plants and herbs useful in daily life.
2. College is conducting online classes in view of the Corona crisis to reduce carbon Footprints.
3. Students are encouraged to use non -plastic bags, Instead of plastic plates, disposable water bottles and paper cups will be promoted.
4. Biogas plants are used to recycle food waste.
5. Various Eco club activities,environmental day celebrations are also held from time to time.
