GREEN POLICY

Sree Vivekananda Teacher Education Centres' concept of green campus is an integration concept in the Education research and community service system in environmental management. It holds the responsibility of maintaining a Green campus, taking eco-friendly initiatives and increasing environmental awareness among staff and students. Green campus is a combination of the environment and the campus world in its management. The concept of the environment which includes 3R (reduce, reuse, recycle). Basically, it's an eco-friendly practice to make the campus a better place to live in.

- Measures shall be taken for minimal or optimal use of papers: Instead of taking hard copies of documents, keep in digital format as far as possible.
- Strategies to lessen the generation of paper waste are shall be adopted: double-sided printing, printing in reduced font size, printing in "fast draft" mode etc.
- e-billing shall be promoted to reduce use of paper.
- Colour coded dustbin system is employed for segregation of solid waste: green dustbins for biodegradable wastes like food; blue dustbins for disposal of plastic wrappers and non- biodegradable wastes.
- Partial Food waste shall be used to generate fertilizer using the Biogas plant installed in the campus.
- Cleaning or emptying of dustbins shall be ensured at regular intervals daily.
- Sanitary napkins are disposed of in incinerators installed in the campus.
- Academic strategies shall be taken to reduce the amount of chemical waste generated in the laboratories.
- Promote existing reuse schemes and develop additional recycling schemes to stream more waste at source.
- Communicate effectively with our employees, students, and residences to increase engagement and participation in the recycling initiatives across campus
- Obsolete electronic devices shall be disposed of through approved agencies.
- MoUs with relevant agencies are renewed time to time.
